

# REDD+ JURISDICIONAL TOCANTINS CRÉDITOS FUTUROS

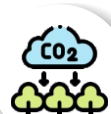

## Futuros créditos de carbono no período de 2022 a 2026:

Conforme previsto no Plano de Prevenção e Combate aos Desmatamentos e Incêndios Florestais (PPCDIF 2021-2025), aprovado pelo Conselho Estadual de Meio Ambiente (COEMA/TO), o Estado do Tocantins estima reduzir 15% ao ano do seu desmatamento ilegal, entre os anos de 2022 e 2026.

\*cada tonelada corresponde a um crédito de carbono florestal.

Soma total de créditos de carbono:

**34.559.730 toneladas**

Soma total em dólares:

**US\$ 345.597.300**

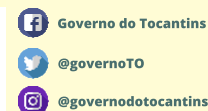

Soma total em reais:

**R\$ 1.900.785.150,00**

\*US\$ 1,00 = R\$ 5,50

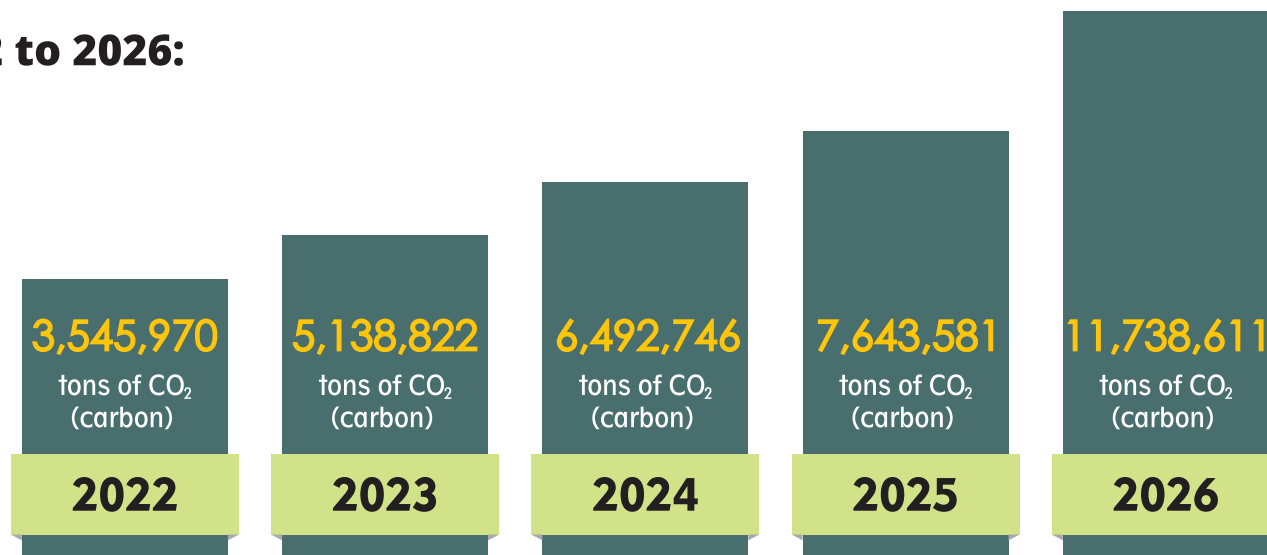

# TOCANTINS

## JURISDICTIONAL REDD+ FUTURE CREDITS

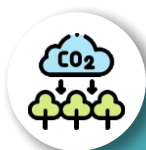

### Future carbon credits from 2022 to 2026:

As provided for in the Plan for the Prevention and Combat of Deforestation and Forest Fires (PPCDIF 2021-2025), approved by the State Council for the Environment (COEMA/TO), Tocantins State estimates to reduce 15% per year of its illegal deforestation, among the years 2022 and 2026.

\*each ton corresponds to a forest carbon credit.

Total sum of carbon credits:

**34,559,730 tons**

Total sum in dollars:

**\$ 345,597,300**

Total sum in reais:

**R\$ 1,900,785,150.00**

\*\$ 1.00 = R\$ 5.50
